

October Professional Development Meeting: Integrating the Collaboration System in Supply Chains

Speaker: Alberto Garcia-Jurado; Cultural System Management

WHEN:

October 5, 2017
6:00 PM to 9:00 PM

WHERE:

Crowne Plaza
14315 Midway Rd.
Dallas, TX 75355

Collaboration is a major issue in supply chain performance. Until now, collaboration has been seen as an activity. This session will provide breakthrough insights for understanding the SYSTEM that underlies the activity and frameworks for integrating it along supply chains. The result is lean collaboration that substantially improves supply chain performance and neutralizes collaborative risks.

Tickets

\$30.00 Members
\$35.00 after 11:00 pm Oct 3

\$35.00 Non-Members
\$40.00 after 11:00 pm Oct 3

\$10.00 Non-Members
\$15.00 after 11:00 pm Oct 3

Room 138, Building 11, 7400 University Hills Blvd, Dallas, Texas 75241

*Panel discussion on
Supply Chain Management Trends and Opportunities*

Recap of September Professional Development Meeting Presentation:

“Next Level Trucking: Autonomous truck platooning a game changer for fuel efficiency and safety”

By John Hamil

Speaker: Mike Lukuc; Research Scientist at the Texas A&M Transportation Institute, Connected and Automated Transportation, College Station, Texas

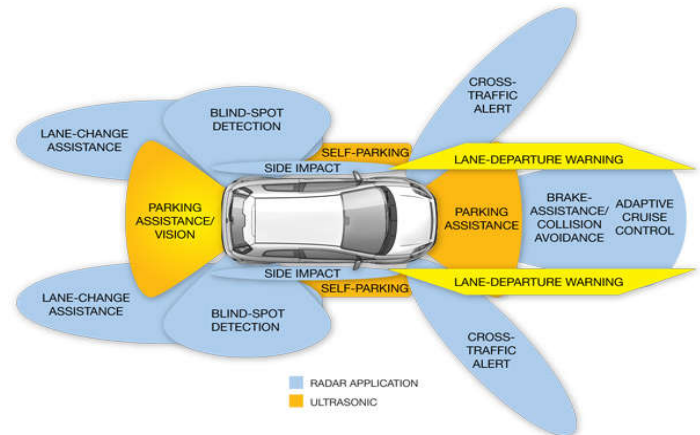

Figure 2 Several driver-assistance systems are currently using radar technology to provide blind-spot detection, parking assistance, collision avoidance, and other driver aids (courtesy Analog Devices).

Texas and the TTI are committed to addressing and solving transportation problems through research; transfer technology and knowledge; and to develop diverse human resources to meet the transportation challenges of tomorrow. The use of truck platooning and autonomous vehicles demonstrates the use of both connected and automated vehicle technologies. This combination has the potential to positively impact lives, safety and economic prospects of people and communities.

Membership Spotlight:

Jenn Kling

How did you first get involved with APICS?

As a MBA student at UTD I was considering the possibility of also obtaining a MS degree. I asked a friend who had the MS in Supply Chain which professional organization he would recommend. APICS was what he suggested. I looked up when the next local meeting was and attended a PDM. The people I met at that PDM were so inviting and the topic was engaging. I knew I would be coming back. When I made the final decision to get a MS in Supply Chain I knew being a part of this organization was a must. The rest is history.

> Tell us how you see the role of women evolve in the profession.

As I started considering and researching roles of Supply Chain professionals, I noticed a trend that more and more women were entering careers in the industry. This impressed me per the perception of Supply Chain and Operations is that it is a man’s world. Supply Chain is evolving into a strategic initiative. More thought and consideration is being put into the how and why of a company’s supply chain. This has opened the doors to all. Hard labor still has its place but with it no longer being the primary focus, women are not being held back.

> What is your favorite part of the PDM?

I love networking. Meeting new people and hearing about their challenges as well as wins in their perspective roles is interesting as well as educational. We can always learn something from those who are putting in the “sweat” equity. I also enjoy a great speaker with an interesting topic. I will forever be a learner and the PDM’s allow for that.

> What do you enjoy most in your VP role?

I treasure the ability to bring my expertise and passion to an organization that values my input and allows me the opportunity to make an impact.

> Tell us something personal about yourself such as what is your favorite sport or favorite pastime

I am a huge animal lover. I have two dogs that are my children and both of them are a year and a half. Mohinder is a French bulldog who is full of sass that I have had since he was a puppy. Commissioner Gordon is a three-legged Doberman that we adopted past June. If you met him, you would never know he only has three legs unless you really look. Nothing slows him down.

CSCP CLASS

What's CSCP?

It's the APICS Certified Supply Chain Professional designation. This program is designed to make you a master of the end-to-end supply chain. You will learn core concepts in supply chain management, strategy, design, compliance, implementation and operations. The CSCP program will teach you how to apply what you've learned about streamlining processes and improving efficiency to your organization. A CSCP designation demonstrates your expertise.

The instructor-led format combines the APICS CSCP Learning System with the guidance of an experienced instructor. APICS has a network of over 300 official channel partners worldwide. Global course listings can be found at learnscsp.com/classes-offered.

Why should you earn the CSCP?

- Led by experienced and certified instructors
- Structured classroom environment ensures that you will stay on track with your studies
- Peer discussions help reinforce learning materials
- Tuition reimbursement may be available from your employer or through government funding

Class Dates:

October 7, 2017 (10-2)
October 8, 2017 (12-4)
October 14, 2017 (10-2)
October 15, 2017 (12-4)
October 21, 2017 (10-2)
October 22, 2017 (12-4)
October 28, 2017 (10-2)
October 29, 2017 (12-4)
November 4, 2017 (10-2)
November 5, 2017 (12-4)
November 11, 2017 (10-2)
November 12, 2017 (12-4)

Where: TBD

Tickets:

\$1,995.00 Plus Members

\$2,195.00 after 05:00 pm September 29

\$2,195.00 Core and Non-members

\$2,415.00 after 05:00 pm September 29

\$2,690.00 Plus member (class and testing voucher)

\$2,960.00 after 05:00 pm September 29

\$3,110.00 Core and Non-members (class and testing voucher)

\$3,420.00 after 05:00 pm September 29
